Re: 37 C.F.R. 1.83(a) Objection

Dear Examiner Fischer:

Thank you for the tele-conference call of earlier today, and for your agreement to accept faxed drawings that were inadvertently not included in the response mailed May 6, 2003. As provided, a good faith effort was made in response to the 37 CFR 1.83(a) drawing objection provided in the Office Action mailed January 6, 2003. Please find enclosed informal figures 1 and 2 and a marked-up copy of the drawing changes which show the missing specification items and claim elements. Changes are either circled or are shown as dotted lines. It is respectfully submitted that no new matter has been introduced. Accordingly, withdrawal of the objection to the drawings is respectfully requested.

The substitute specification as filed on May 6, 2003 includes changes of form such as the addition of line and paragraph numbering. Since a marked up copy of the substitute specification was not filed on May 6, 2003, for the interest of expediency, please choose to enter or deny submission of the substitute specification without a marked up copy. If submission is denied, Applicants shall submit a substitute specification with a marked up copy in a subsequent communication with the PTO.

Respectfully submitted
